What's new in Version 1.8.2?

- No new features in this point release.

Bugs fixed in Version 1.8.2

- Enabled Lotus Connections Business Cards integration on missing pages.
- Fixed bug with IdeaSpaces that contain brackets in them.
- Fixed mail sending issue for leavers in Send IdeaSpace Followers Updates agent.

If you are a new IdeaJam customer installing V1.8.2 you should refer to the “IdeaJam Installation, Setup and Customization Guide” located at <http://elguji.com/documents>.

Before You Begin Your Upgrade

Before you upgrade your existing IdeaJam databases please ensure you have made a backup of the IdeaJam database as well as the IdeaJam Votes database. The IdeaJam V1.8.2 databases should also be signed with the appropriate administrative ID after your upgrade.

We highly recommend that you seek the advice of your Lotus Notes/Domino Administrator before you begin your upgrade.

If you are not running version V1.8.1 of IdeaJam it is required that you first upgrade to V1.8.1 prior to upgrading to V1.8.2.

Upgrading your IdeaJam will require that you:

1. Replace the designs of the IdeaJam and IdeaJam Votes databases.
2. Sign the databases with the appropriate ID.
3. Edit and save the IdeaJam Control Panel.

Replacing the Design of Your IdeaJam and IdeaJam Votes Database

IdeaJam Database

1. Replace the design of your IdeaJam database with the **IdeaJam_V1_8_2.ntf** template from Domino Administrator.
2. Edit and Save the IdeaJam Control Panel.

3. Sign the database with the appropriate ID.

IdeaJam Votes Database

1. Replace the design of your IdeaJam Votes database with **the IdeaJam_Votes_V1_8_2.ntf** template from Domino Administrator.
2. Sign the database with the appropriate ID.

Agents

All of the IdeaJam agents have been disabled by default. You will need to enable the appropriate ones as described in this section.

Systems Tasks

There is a new system task available in V1.8.2 that will remove square brackets for IdeaSpace names as they are not a valid character for IdeaSpace names. Running this process will remove the brackets and replace them with blank spaces.

Need Assistance – Contact Customer Support

Please contact Elguji Customer Support at IdeaJamSupport@elquji.com if you have any questions about upgrading your IdeaJam to V1.8.2.
