IdeaJam V1.9 New and Notable Features

New and notable features include:

- IdeaJam can be switched into "read/view only" mode.
- An IdeaJam can be set to automatically switch into "read/view mode" on a specified date.
- Participant reputation scores and badges (Gold, Silver and Bronze). Badges are now displayed next to participant names and in the Top Innovators leaderboard.
- A Spanish language pack is now including with IdeaJam in addition to German, French, Dutch, Italian and others.
- The IdeaJam JSON API now supports JSONP which allows you to call the API and share IdeaJam content from another domain.
- Added a new API method getTopInnovators that provides the list of Top Innovators including their reputation in the response.
- A new "idea activity" chart is available for every idea which shows when people voted and commented on their idea during the last 28 days.
- A new user role which prohibits participants from creating ideas while allowing them to vote and comment.
- A new user role which prohibits participants from creating comments.
- A new "moderator" user role which allows moderation of all IdeaSpaces without having to assign them full administrative rights.
- A new sidebar widget which displays the list of IdeaSpaces (categories/themes) and their associated idea counts.
- There are now tooltips associated with voting labels.
- Month names displayed in dates are now displayed in the local language when viewing ideas and comments.
- Support for multiple configurable static content pages has been added.
- Individual charts on the Statistics page can now be enabled or disabled.
- The XPages version of IdeaJam has been upgraded to work with Domino 8.5.2+.
